

Steps for setting up Alexa account

1. Download Amazon Alexa app from Playstore/Appstore
2. Register and Sign in.
 - a. If the user sign in using the same email id used for Amour app, the skill will proceed.
 - b. If the user sign in using a different email id than the one for Amour app, the skill will prompt the user to use the same email id and exit the session.
3. Add Device(Alexa Echo) to the app by following the app shown in the steps.
4. Go to Device Settings -> Language. Choose English (India).
5. Invoke the skill using the below steps.
